THOSE INDICTMENTS

Brought Out as Soon as The Grand Jury Adjourned.

The held-up warrants against Christian county Democrats, returned on the testimony of negroes who claimed to have been bribed and intimidated in 1897, were produced by L. Yonts last Saturday. The warrants were against Messrs. John G. Childress, Thos. H. Carloss, Jr., and Matt S. Major, all prominent and reputable citizens and large tax-payers of the county.

It is a significant fact that these warrants were held up until the Christian county grand jury had adjourned. Contrary to expectation and to the intense gratification of the Republican corruptionists themselves, the grand jury did not enter into an examination of the flagrant frauds committed last year. That this plain duty was neglected, is discouraging to those who are desirous of stopping Republican frauds in this county.

Mr. Childress was arrested Saturday and gave bond for \$750 to appear at Owensboro Jan. 28, 1901. Mr. Major and Mr. Carloss were put under similar bonds yesterday. They are charged with inducing negroes to attend a barbecue on election day in 1897 and thereby preventing them from voting.

White Republicans, whose identity is well-known, and whose methods are denounced by many of the better class of Republicans themselves, instigated the persecution of the gentleman indicted.

▼ SANK FROM SIGHT.

Little Boy Stepped Into Sink-Hole and Drowned.

The little six-year-old son of Mr. Charles Gossett, of this city, was accidentally drowned about three o'clock last Friday afternoon. The little fellow, in company with several other children, was wading around the edge of a pond on the Means' place, not far from Dalton's brick yard, when he ventured out too far, and stepping into a sink-hole, soon sank from sight. An alarm was at once given by one of the other children and some of the men at work at the brick yard ran to the pond. One of the men, Bud Withers, col., plunged into the water and succeeded in bringing the body out. Physicians were summoned and every effort was made to resuscitate the child, but to no purpose, as he was dead.

He was a very bright little fellow, popular with his playmates, and his parents have the sympathy of the community in their bereavement.

The remains were interred Saturday.

ALUM BAKING POWDERS.

Congress Acting to Suppress Their Sale.

The report of the Senate Committee on Manufactures upon the subject of food adulterations and food frauds has created a sensation in Congress and awakened great interest throughout the country.

If there could be published a list of the names of all articles of food by the Committee to be adulterated or made from poisonous ingredients, it would be of inestimable value to the public.

The recommendation of the Committee, that the sale of alum baking powders be prohibited by law, will make of special interest the following list of names of baking powders containing alum sold in this vicinity:

- Baking Powder Containing Alum.**
- GOOD LUCK**.....Contains Alum.
Manf. by Southern Mfg. Co., Richmond.
- BON BON**.....Contains Alum.
HOTEL
- Manf. by Grant Chemical Co., Chicago.
- KENTON**.....Contains Alum.
- PEACOCK**
- Manf. by Potter-Parlin Co., Cincinnati.
- SUCCESS**.....Contains Alum.
Manf. by Morehouse Mfg. Co., Savannah, Ga.
- GRANT'S IM-**.....Contains Alum.
- PROVED**
- Manf. by J. C. Grant & Sons Mfg. Co., St. Louis.

- Manf. by Eddy & Eddy, St. Louis.
- OLD DOMINION**.....Contains Alum.
Manf. by Old Dominion Mfg. Co., Richmond.
- CROWN**.....Contains Alum.
Manf. by J. P. Dieter Co., Chicago.

It is unfortunate that many manufacturers of alum baking powders, even some in the above list, falsely state that their powders do not contain alum. It is only right that consumers should have correct information as to the character of every article of food offered to them.—Chicago Chronicle.

GRACEY A LAKE.

Town Under Water From Two to Ten Feet Deep.

Gracey, Ky., June 18.—The rains of last week have left Gracey in the midst of a lake from two to ten feet deep. For several days the water has been at a stand and has not fallen an inch. On Main street from the I. C. depot to the L. & N. railroad the water will swim a horse. The elevated plank walk is covered and boats are to be seen on the submerged streets.

J. P. Meacham's garden is under water four feet deep and the water is up to the floor of his house, covering the entire lot and yard. Many stables and outhouses are in water up to the tops and growing crops are totally destroyed.

Only a small part of the wheat crop has been harvested, but it is not yet over-ripe and is not badly damaged except where it has been blown down.

CHUNKS OF HARMONY.

Louisville Convention a Regular Love Feast.

No Tin Horns, No Policemen and Nobody Had Cause To Kick Against Anything.

Louisville, June 14.—The Democratic state convention accomplished its work harmoniously and amid the greatest enthusiasm. The attendance was much larger than was expected, in view of the fact that there were no exciting contests for offices to draw the adherents of various candidates here. There was no friction at any point and a smoother, more harmonious convention was never held in the state. Hon. Ollie M. James presided as temporary chairman and held the gavel until the permanent organization was effected at the night session. He made a fine impression as a presiding officer, as did also Hon. Frank E. Daugherty, who succeeded him as permanent chairman.

The convention named eight delegates from the state at large to the Kansas City convention, naming no no alternates. In this way the state will be ably represented, and nobody can find any fault with the selections. The "big eight" are Blackburn, McCreary, McQuown, Poyntz, Bransford, Gregory, Utley and Pryor.

The committee on permanent organization reported no charges in the committees with one exception in the Eighth district. The committee also reported a rule which provides that, except in cities of the first and second class, precinct committeemen shall be chosen by vote of the Democrats of the precinct.

The report was adopted after some debate.

Senator Jo Blackburn read the report of the committee on resolutions. The convention reaffirmed the Chicago platform and instructed the twenty-six delegates from Kentucky to cast their votes for Bryan and vote as a unite on all questions. The Republican national policy was denounced in its entirety, as was imperialism, the Porto Rican tariff bill, the maintenance of the army in the Philippines and the financial policy. Sympathy is expressed for the two South African republics. Trusts are denounced and the Democrats of Kentucky are congratulated for their course in the recent trouble. The assassination of Goebel was declared to be the result of a Republican conspiracy, and Wm. S. Taylor and his official acts are denounced.

Senator Blackburn, after reading the resolutions, addressed the convention on the proposal to modify the present election law, known as the Goebel law. He said the committee had been perfectly harmonious, and that it was agreed that a modification of the law was necessary. This, he said, was the opinion of Goebel himself. Amendments were recommended such as will give the two leading parties equal representation on the election boards and a insure fair and honest count. The committee also favored an educational qualification for voting.

These changes Senator Blackburn said, it had been decided to leave to the convention to nominate a governor, which will be held July 19 in Lexington.

John S. Rhea followed Blackburn, making a very taking speech. Frank Peake also made a strong and effective speech.

The resolutions were adopted.

A resolution was introduced naming eight men for delegates at large. It was referred to the committee on resolutions, who returned it without an expression of opinion. The resolution was laid on the table and the work of selecting the delegates at large was proceeded with. Those named in the list of delegates from the state at large were elected by acclamation.

Napoleon B. Hays, of Pineville, and Morton K. Yonts, of Greenville, were chosen for electors of the state at large. The assistants are Wallace McKay, of Louisville, and W. P. Thorne, of Eminence.

After passing the usual complimentary resolutions and adopting the roster as the party device, the convention adjourned.

At the afternoon session the vari-

Does Your Baking Powder Contain Alum?

Prof. Geo. F. Barker, M.D., University of Penn.: "All the constituents of alum remain (from alum baking powders) in the bread, and the alum itself is reproduced to all intents and purposes when the bread is dissolved by the gastric juice in the process of digestion. I regard the use of alum as highly injurious."

Dr. Alonzo Clark: "A substance (alum) which can derange the stomach should not be tolerated in baking powder."

Prof. W. G. Tucker, New York State Chemist: "I believe it (alum) to be decidedly injurious when used as a constituent of food articles."

Prof. S. W. Johnson, Yale College: "I regard their (alum and soluble alumina salts) introduction into baking powders as most dangerous to health."

In view of such testimony as this, every care must be exercised by the housewife to exclude the over and over condemned cheap, alum baking powders from the food.

Baking powders made from cream of tartar, which is highly refined grape acid, are promotive of health, and more efficient. No other kind should be used in leavening food. Royal Baking Powder is the highest example of a pure cream of tartar powder.
